Excelitas to Present Expanded Portfolio of UV Curing and IR Drying Solutions for Labels and Packaging at Labelexpo Europe 2025

WHO: [Excelitas®](#), a leading provider of advanced, life-enriching technologies that make a difference, serving global market leaders in the life sciences, advanced industrial, next-generation semiconductor and avionics sectors, will showcase the company's full spectrum of UV curing and IR drying solutions for labels and packaging at the [Labelexpo Europe 2025](#).

WHAT: Excelitas' expanded portfolio now offers customers the full spectrum of solutions from UV to IR to better support label and packaging applications. As a single source provider, the Excelitas portfolio includes UV LED curing systems, infrared emitters and systems, medium pressure UV arc lamps, UVC Excimer lamps, UV microwave curing systems and spot curing systems.

Excelitas experts will be on hand at Booth #3B13 to highlight and discuss featured products, including:

- [NEW Phoseon Nexus II™ UV LED Air- and Water-Cooled Systems](#): Ideally suited for flexographic printing applications, Nexus II delivers the highest total UV power output to achieve increased print speeds, increased press uptime and double the product lifetime. Nexus II comes with real-time remote monitoring capabilities for Industry 4.0.
- [Phoseon FireJet™ UV LED Air-Cooled System](#): Capable of curing at the highest speeds for small, medium and grand format digital printing systems, FireJet is ideal for many large single pass UV inkjet applications.
- [Phoseon FireLine™ UV LED Water-Cooled System](#): Designed for a wide variety of web/conveyor-based UV curing applications, the FireLine architecture is designed to allow the systems to be scalable and built up to 2 meters in length.
- [Noblelight Infradry® Compact IR Heating System](#): Infradry is ideal for label and packaging applications that utilize water-soluble inks and coatings with water-based inks.
- [Noblelight Amba® Mercury Arc Lamps](#): Available in various lengths and power classes, Amba lamps are ideal for use as replacement UV curing lamps for a wide range of labels and packaging applications.

For additional information, access an article and podcast detailing what to expect from Excelitas at Labelexpo Europe [here](#).

WHEN: September 16 – 19, 2025

WHERE: Excelitas Booth #3B13
Fira Gran Via, Barcelona, Spain

About Excelitas

Excelitas is a leading provider of advanced, life-enriching technologies that make a difference, serving global market leaders in the life sciences, advanced industrial, next-generation semiconductor and avionics end markets. Headquartered in Pittsburgh, PA, USA, Excelitas is an essential partner in the design, development and manufacture of photonic technologies, offering leading-edge innovation in sensing, detection, imaging, optics and specialty illumination for customers worldwide. Excelitas is at the forefront of addressing many of the relevant megatrends impacting the world today, including precision medicine, industrial automation, artificial intelligence and connected devices (IoT).

Connect with Excelitas on [LinkedIn](#), [Facebook](#), [X](#) and [Instagram](#), or visit www.excelitas.com for more information.

Excelitas®, Infradry® and Amba® are registered trademarks, and Nexus II™, FireJet™ and FireLine™ are trademarks of the Excelitas group of companies. All other products and services are either trademarks or registered trademarks of their respective owners.
