Excelitas Technologies to Highlight OmniCure UV Curing Systems for Medical Device Manufacturing at MD&M West

WHO: [Excelitas Technologies® Corp.](#), a global technology leader delivering innovative, customized photonic solutions, will showcase its broad offering of OmniCure® UV Curing Systems for medical device manufacturers at [MD&M West](#).

WHAT: Expert staff will be available in-person at Excelitas booth #2233 to discuss OmniCure's industry-proven spot and area UV curing technology, including:

- [OmniCure S2000 Spot UV Curing System](#): The OmniCure S2000 Spot UV Curing System is ideal for precision adhesive curing in a variety of industries, particularly medical device bonding applications. Using an integrated optical UV sensor and OmniCure's patented real-time Closed-Loop Feedback technology, the S2000 offers the highest level of process control and consistency, which results in superior product quality, rapid production and lower manufacturing costs.
- [OmniCure LX500 LED Spot UV Curing System](#): Featuring up to four LED heads with up to 16W/cm² peak irradiance and a proprietary Intelli-Lamp® technology, the LX500 provides unmatched optical stability for consistent and repeatable assembly of medical devices with lower costs. Available in either two or four channel configurations, the flexible, cost-effective LX500 is ideal for use in medical devices such as catheters, cannulas, endoscopes and syringes.
- [OmniCure AC Series UV LED Curing Systems](#): Available in a wide range of form factors and wavelengths, the OmniCure AC Series UV LED Curing Systems provide exceptional performance, quality and robustness. Delivering high output power and outstanding uniformity within a compact modular air-cooled design, these systems are scalable and easy to integrate to meet the specific needs of a variety of a variety of medical applications.

WHEN: August 10 – August 12, 2021

WHERE: [Anaheim Convention Center](#), Anaheim, CA, Excelitas Booth #2233.

###

About Excelitas Technologies

Excelitas Technologies® Corp. is a leading industrial technology manufacturer focused on delivering innovative, market-driven photonic solutions to meet the lighting, optical, optronic, and detection needs of our OEM customers. Serving a vast array of applications across biomedical, scientific, safety, security, consumer products, semiconductor, industrial manufacturing, defense and aerospace sectors, Excelitas stands committed to enabling our customers' success in their end-markets. Our team consists of 7,000 professionals working across North America, Europe

and Asia, to serve customers worldwide. Connect with Excelitas on [Facebook](#), [LinkedIn](#) and [Twitter](#). Visit www.excelitas.com for more information
