

**MEDIA ADVISORY**

**April 11, 2017**

**Excelitas Technologies to Showcase OmniCure® UV LED Curing Systems  
at InPrint USA**

**WHO:** [Excelitas Technologies® Corp.](#), a global technology leader delivering innovative, customized photonic solutions, will highlight its latest OmniCure® UV LED Curing Systems for industrial printing applications at [InPrint USA](#) in Orlando, FL.

**WHAT:** Products on display at Excelitas' exhibit (Booth 1820) include:

- [OmniCure AC2 Series UV LED Curing Systems](#): Excelitas' OmniCure AC275 and AC2110 air-cooled UV LED curing systems combine highly efficient LEDs with advanced front-end optics to provide high peak irradiance and exceptional uniformity. Designed with a compact form factor, the AC2 Series is ideal for space-constrained applications, as well as for use in print applications such as pinning. Multiple UV LED heads can be adjoined to grow the curing area, while maintaining optical uniformity between each system. The flexibility to achieve larger curing areas in a variety of customizable lengths enables manufacturers to improve throughput without compromising on performance.
- [OmniCure AC5 Series UV LED Curing Systems](#): Featuring high-output LEDs and custom optics, the OmniCure AC550/P and OmniCure AC575/P air-cooled UV LED curing systems provide high irradiance (14 W/cm<sup>2</sup>), allowing manufacturers to achieve outstanding productivity and reduce running costs using LEDs with long lifetime and lower electrical consumption. AC5 Series systems are ideal for curing inks, adhesives and coatings in printing applications such as labels, bar coding and package printing, and for industrial and electronics manufacturing applications.
- [OmniCure AC9 Series UV LED Curing Systems](#): The innovative design of Excelitas' OmniCure AC9 UV LED Systems includes a high-performing, air-cooled solution to enable faster line speeds in printing and industrial manufacturing. OmniCure AC9150/P, AC9225/P, and AC9300/P UV LED curing systems feature advanced front-end optics to provide high power, high peak irradiance of over 14 W/cm<sup>2</sup>, and exceptional uniformity for fast curing of inks, adhesives and coatings.

**WHEN:** April 25 – 27, 2017

**WHERE:** [Orange County Convention Center](#), Orlando, FL. Excelitas Booth 1820.

###

**About Excelitas Technologies**

Excelitas Technologies Corp. is a global technology leader focused on delivering innovative, high-performance, market-driven photonic solutions to meet the lighting, detection and optical technology needs of global customers. From biomedical technology to research laboratory, safety and security, consumer products, semiconductor, energy and environment, industrial sensing & imaging, defense and aerospace, Excelitas Technologies is committed to enabling our customers' success in their end-markets. Excelitas Technologies has approximately 5,500 employees in North America, Europe and Asia, serving customers across the world. Connect with Excelitas on [Facebook](#), [LinkedIn](#) and [Twitter](#).
