

**MEDIA ADVISORY**

**November 4, 2015**

**Excelitas Technologies® Corp. and Quorum Technologies Present  
Microscopy Systems for Optogenetics Webinar**

- WHO:** [Excelitas Technologies® Corp.](#) and [Quorum Technologies](#) will present a webinar entitled "[How Can I Build a Microscopy System for Optogenetics?](#)" led by featured speakers Kavita Aswani, Ph.D., senior applications scientist for the Life Sciences products at Excelitas Technologies, and Ryan Geil, M.Sc., service manager at Quorum Technologies Inc. The session will be moderated by [Photonics Media](#).
- WHAT:** The webinar will address optogenetics, a technique that uses light to activate or inhibit cellular activities. It will provide researchers that are interested in using this technique with an overview of optogenetics and its applications. The webinar will also detail how users can set up a microscopy system to utilize this powerful technique in their own research laboratory.
- WHEN:** The webinar will take place on Thursday, November 12th at 1:00 p.m. (EST). Register today by clicking [here](#). All registrants will automatically receive access to the presentation slides and recorded webinar.

**About Excelitas Technologies**

Excelitas Technologies Corp. is a global technology leader focused on delivering innovative, high-performance, market-driven photonic solutions to meet the lighting, detection and other technology needs of global customers. From biomedical technology to research laboratory, safety and security, consumer, semiconductor, industrial, energy and environment, as well as defense and aerospace applications, Excelitas Technologies is committed to enabling our customers' success in their end-markets. Excelitas Technologies has approximately 5,500 employees in North America, Europe and Asia, serving customers across the world. Connect with Excelitas on [Facebook](#), [LinkedIn](#) and [Twitter](#).
